

“ROOTS OF THE FUTURE” ***Technologies and new languages***

COMPETITION FOR YOUNG FASHION DESIGNERS

Creazione e Immagine, a cultural association with headquarters in Cosenza, presents the **29th edition** of **Moda Movie**, the **festival** born in 1997 from the idea of celebrating and deepening the relationship between the world of Fashion, Cinema and Arts.

As part of the festival there is a **competition for young fashion designers** that aims to **valorize** and **promote** the **emerging talents** of the fashion world and give them a chance to **compare**, **training**, **professional growth** and **visibility**.

For each edition of the festival is identified a **theme of interest** to which are addressed the call for competition for fashion designers, the activities related to the cinema, as well as all the different collateral events that make up the entire event.

THE THEME OF THE 2025 EDITION

Italy is a custodian nation of an immense cultural heritage: a set of assets (tangible and intangible) that represent the identity of our country and relate us to our roots.

Preserving this wealth is an investment for the future, to pass on the beauty and richness of our culture to new generations.

Following the idea that there is no future without the past, but taking into account the rapidity of technological development and the impact that it has in all areas, it was decided to focus the 2025 edition of Moda Movie on the theme **“Roots of the future. Technologies and new languages”**.

The Italian cultural heritage contains a wide range of knowledge and know-how that has been passed down over the centuries. A heritage that should not be dispersed but adapted to the new artistic languages that modernity proposes. Craftsmanship therefore marries contemporaneity through the use of new materials, new forms of communication, and an aesthetic that does not transcend beauty and respect for nature and the environment.

Contest participants are asked to direct their creations starting from a style of the past, from an iconic garment, from a sartorial technique in use, revisiting and innovating them according to what the fashion industry offers today, making the dress and the accessory the tool for conveying artistic, ethical, social and environmental messages.
